

Community Development

Written Standards for Provision of
Emergency Solutions Grants (ESG)
Assistance

Last Revised June 2014

Eligibility Evaluation Policy

Standard policies and procedures for evaluating individuals' and families' eligibility for assistance under ESG.

Each individual program is allowed to have general criteria by which they evaluate a potential participant's eligibility in an ESG-funded program. All such criteria must be reviewed and approved by the Homeless Assistance Application Review Committee of the Community Development Commission (CDC), and must contain the following:

- All program participants must have an initial consultation with a case manager or other authorized representative who can determine eligibility and the appropriate type of assistance needed.
- All program participants must have income at or below 30% of the Area Median Income (AMI). Income shall be determined on a prospective basis (not retrospective), and shall be certified using the Part 5 definition.
- A Staff Certification form (to be provided by Lake County) must be completed with each eligibility evaluation.

For persons who are considered "literally homeless," no additional eligibility criteria are necessary. The documentation requirements for such persons are as follows:

- Written observation by the outreach worker; or
- Written referral by another housing or service provider (including HMIS recorded referral); or
- Certification by the individual or head of household seeking assistance stating that (s)he was living on the streets or in a shelter.

- For individuals exiting an institution – one of the above forms of evidence and:
 - Discharge paperwork or written/oral referral, or
 - Written record of intake worker's due diligence to obtain above evidence and certification by individual that they exited institution

For persons who are considered at "imminent risk of homelessness," the following documentation is required:

- A court order resulting from an eviction action notifying the individual or family that they must leave; or
- For individual and families leaving a hotel or motel – evidence that they lack the financial resources to stay; or
- A documented and verified oral statement; and
 - Certification that no subsequent residence has been identified; and
 - Self-certification or other written documentation that the individual lacks the financial resources or support necessary to obtain permanent housing.

Finally, persons that are fleeing or attempting to flee domestic violence must have the following documentation:

- *For victim service providers:*
 - An oral statement by the individual or head of household seeking assistance which states: they are fleeing; they have no subsequent residence; and they lack

resources. Statement must be documented by a self-certification or a certification by an intake worker.

- *For non-victim service providers (i.e., agencies who do not exclusively serve DV victims):*
 - Oral statement by the individual or head of household seeking assistance that they are fleeing. This statement is documented by a self-certification or by the caseworker. Where the safety of the individual or family is not jeopardized, the oral statement must be verified; and
 - Certification by the individual or head of household that no subsequent residence has been identified; and
 - Self-certification or other written documentation, that the individual or family lacks the financial resources and support networks to obtain other permanent housing.

Lake County does not intend to serve many persons considered homeless under other Federal statutes at this time; however, the following documentation is required:

- Certification by the organization that the individual or head of household seeking assistance met the criteria for homelessness under another federal statute; and
- Certification that the individual or head of household had no permanent housing in the last 60 days; and
- Certification by the individual or head of household, and any available supporting documentation, that (s)he has moved two or more times in the past 60 days; and
- Documentation of special needs or at least two of the following barriers:
 - the lack of a high school degree or General Education Development (GED);
 - illiteracy;
 - low English proficiency;
 - a history of incarceration or detention for criminal activity;
 - a history of unstable employment

“At Risk of Homelessness”

For persons who are considered “at risk of homelessness,” the following criteria apply:

- Program participants must not have sufficient resources or support networks, e.g., family, friends, faith-based or other social networks, immediately available to prevent them from moving to an emergency shelter or another place described in the definition of homeless; and
 - Meets ONE of the following conditions:
 - Has moved because of economic reasons two or more times during the 60 days immediately preceding the application for homelessness prevention assistance;
 - Is living in the home of another because of economic hardship;
 - Has been notified in writing that their right to occupy their current housing or living situation will be terminated within 21 days after the date of application for assistance;
 - Lives in a hotel or motel and the cost of the hotel or motel stay is not paid by charitable organizations or by federal, State, or local government programs for low-income individuals;
 - Lives in a single-room occupancy or efficiency apartment unit in which there reside more than two persons or lives in a larger housing unit in which there reside more than 1.5 people per room, as defined by the U.S. Census Bureau;

- Is exiting a publicly funded institution, or system of care (such as a health-care facility, a mental health facility, foster care or other youth facility, or correction program or institution); or
- Otherwise lives in housing that has characteristics associated with instability and an increased risk of homelessness, as identified in the Lake County Consolidated Plan;

For persons who are considered “at risk of homelessness,” the following documentation is required:

- A documented and verified oral statement from the program participant; and
- Certification that no subsequent residence has been identified; and
- Self-certification or other written documentation that the individual lacks the financial resources or support necessary to obtain permanent housing; and
- Self-certification or other written documentation that the individual meets one of the conditions listed

Homeless Services Coordination Policy

Policies and procedures for coordination among emergency shelter providers, essential service providers, homelessness prevention and rapid re-housing assistance providers, other homeless assistance providers, and mainstream service and housing providers.

All ESG-funded programs must participate in the Lake County Homeless Management Information System (HMIS), commonly known as ServicePoint. Only programs that are specifically forbidden by other statutes or regulations (e.g., domestic violence victim service providers) may not participate. All HMIS-participating agencies must collect and maintain common data fields as determined by the HMIS Administrator and HMIS Committee, considering all relevant regulations. These common practices will be to ensure services are coordinated among organizations – one client, one record.

[RESERVED FOR FUTURE CENTRAL/COORDINATED INTAKE]

Finally, all ESG-funded programs must send a representative to the meetings of the Lake County Coalition for the Homeless. Participation in at least one committee is also required. Failure to attend may result in penalties on future applications.

Prioritization Policies

Policies and procedures for determining and prioritizing which eligible families and individuals will receive homelessness prevention assistance and which eligible families and individuals will receive rapid re-housing assistance.

Homelessness Prevention

Any household that may otherwise be eligible for prevention assistance under ESG must also meet the “but for” rule – that is, “Would this individual or family be homeless but for this assistance?”

The “but for” rule can be documented with the following:

- Certification by the individual or head of household that no subsequent residence has been identified; and
- Self-certification or other written documentation, that the individual or family lacks the financial resources and support networks to obtain other permanent housing.

Furthermore, any household that qualifies for prevention assistance and meets the “but for” rule must also have the following qualifications:

- Have no more than three months of arrears; and
- Demonstrate an ability to sustain housing; and
- Demonstrate an ability to earn income; and
- Would remain in housing that is decent, safe, sanitary, and affordable.

If the household cannot meet the above qualifications, it is reasonable to infer that the household is in greater need than prevention assistance can provide for, and the household will be referred to a more appropriate program.

Rapid Re-Housing

Programs funded to do rapid rehousing in Lake County must use an assessment that identifies barriers to obtaining and maintaining housing. Programs will select participants based on this assessment by prioritizing the population where a rapid rehousing intervention will be most effective. This population will have barriers to housing but not significant barriers. Programs will continue to assess the match between intervention and target population as data is available.

Rent & Utility Cost Sharing Policy

Standards for determining the share of rent and utilities costs that each program participant must pay, if any, while receiving homelessness prevention or rapid rehousing assistance.

Each individual program is allowed to have general criteria by which they determine a program participant's share of rent and/or utilities in an ESG-funded program. All such criteria must be reviewed and approved by the Homeless Assistance Application Review Committee of the Community Development Commission (CDC).

Rapid rehousing programs will focus subsidies on providing just enough assistance to allow participants to maintain housing. Programs will use a declining subsidy model to allow participants to adjust to subsidy reductions over time. Participants will be better prepared to assume full responsibility for rent as program termination approaches.

Length of Participation Policy – Financial Assistance

Standards for determining how long a particular program participant will be provided with rental assistance and whether and how the amount of that assistance will be adjusted over time.

Within homeless prevention programs, ESG funds will be limited to short-term rental assistance (up to three months) and payment of rental arrears (up to three months). Participants may only receive ESG prevention assistance once in a 24-month period.

Rapid rehousing programs will provide rental assistance for a maximum of nine months. Payment of up to three months of rental arrears will be allowed.

Length of Participation Policy – Housing Stabilization and/or Relocation Services

Standards for determining the type, amount, and duration of housing stabilization and/or relocation services to provide a program participant, including the limits, if any, on the homelessness prevention or rapid re-housing assistance that each program participant may receive, such as the maximum amount of assistance, maximum number of months the program participants receives assistance; or the maximum number of times the program participants may receive assistance.

The amount and type of Housing Stabilization and/or Relocation Services to be provided to a particular program participant will be determined by the organization providing the assistance within the following parameters:

- Program staff will meet with participants at least once monthly for the duration of their program participation.
- Programs will conduct follow-up with participants, three and six months after they are exited from the program.
- In homeless prevention programs, the duration of such services shall not exceed six months.
- In rapid rehousing programs, services will not exceed nine months.

Performance Measures

Performance measures for ESG projects were developed in consultation with the Continuum of Care to align with the strategies to end homelessness in Lake County, the existing reporting requirements of the CoC and the data available in the homeless management information system.

Lake County developed the following performance measures, in consultation with the Continuum of Care, to help accomplish the following goals:

- Measure program performance
- Align program evaluation between ESG and the CoC
- Measure the County's progress toward homeless services goals as outlined in the Consolidated Plan, Annual Action plan and reported to HUD in the Consolidated Annual Performance and Evaluation Report (CAPER)

Participation in the Homeless Management Information System (HMIS) is required by ESG regulation for all projects receiving ESG funding. Therefore, all performance measures must be tracked in and run out of HMIS, locally known as ServicePoint.

The required ESG performance measures are as follows:

For all programs:

- Average length of stay
- Percentage of households with exits to permanent destinations
- Percentage of adult participants who maintain or increase their income

For Homeless Prevention Programs (except legal services) and Rapid Rehousing Programs:

- Percentage of households who remain in permanent housing six months after their exit from the program
